SPIGARELLI HANDLE CNC FOR GM BOW

Revised model 1994
Includes recessed clicker and strengthened, redesigned limb pockets.

SB01 £330.00 (C)

For the last couple of seasons, the decrease in arrow weight with the use of carbon arrows plus the use of carbon foam limbs and fastflite bowstrings, has increased greatly the stress on all bow handles. To counter this Hoyt have greatly increased the strength of the GM handle. However, SPIGARELLI in Italy has produced an exceptionally strong machined handle. It has more weight in the hand (a point which also protects the archers shoulder and elbow joints). Features of the Spigarelli handle include — clicker, button with adjustable position and magnetic arrow rest.

Yamaha's Super Top Tournament Eolla Bow — designed to minimise vibration in the handle. Limbs with enhanced shooting characteristics.

CERAMICS CARBON LIMBS

CARBON GRAPHITE LIMBS

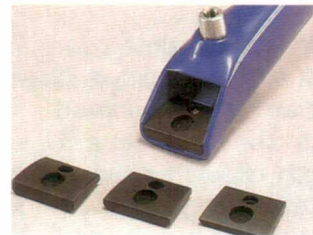

LAMINA GLASS LIMBS
